Community Fund

Giving Back to our Communities

Members working and living in their communities see opportunities everyday where their profession can make a difference. The NSDA 's Community Fund helps take that opportunity and make it reality.

The fund provides financial assistance to community-focused groups, projects, events and initiatives. The goal is to support activities which build better communities.

Vision:

- To impact the community where members live and practice
- To elevate the profession as a whole as being good professional citizens
- To make an impact beyond oral health
- To build, influence & support for the profession with a wide audience of Nova Scotians'

Since 2007, the NSDA community fund has sponsored over \$150,000 in community development projects across the province.
